EXPERIENCE

Hello Lamp Post - Designer

LONDON • MARCH - AUGUST 2018

Lead designer in establishing playful public engagement startup. Delivered design proposals, project front-end development, graphic and interaction design for clients in Europe, Asia and the USA, as well as implement a more succinct agile design methodology.

PAN Studio - Design Intern

LONDON • AUGUST 2017 - AUGUST 2018

Assisted the team on a wide-variety of design projects throughout the year. Notably re-created an animatic and led audience feedback sessions, before animating, editing and mixing the final animation. This was successfully delivered to the client and published on their website homepage and social channels.

Run An Empire - UI/UX Intern

LONDON • AUGUST 2017 - JANUARY 2018

Designed and implemented user interface assets and visual design for new features in iOS/Android app, as well as providing in-depth user communication and research to better inform the development team's user-centred design process.

Built by Buffalo - Front-end Developer (Intern)

BRIGHTON • SUMMER 2016

Assisted lead designer with front-end development for a responsive digital experience for a high-profile client. Applied skills in HTML, CSS (Sass), JavaScript, Ruby and Git for version control.

Thank you for reading.
